NYC-based AI Leader with 11 years of experience across Actuarial science, Startup, and Consulting (BCG X). I specialize in moving AI from "Proof of Concept" to 20M\$ P&L impact by bridging the gap between ML and executive business strategy.

Experience

BCG X

PRINCIPAL DATA SCIENTIST

Paris, France - New York, USA

Nov. 2019 - Today

- **Designed and piloted 15+ end-to-end AI solutions** in 7 years, generating 20M\$ in incremental revenue across Insurance, Telco, and Banking.
- **Industrialized 5 production-grade ML pipelines** on client cloud infrastructure, optimizing price with elasticity, cross-sell, fraud detection and default risk; leveraged expected value optimization to link ML models with Business P & L.
- **Bridged the "Strategy-to-Code" gap**, by translating executive business goals into technical roadmaps; steered cross-functional DS and IT teams to deliver weekly data-driven decisions under aggressive timelines.
- **Led and mentored teams of up to 8+ engineers / data scientists** using agile methodologies, daily standups and code reviews; engineered internal hiring and talent pipelines for Tier-1 global clients.
- **Career advisor for multiple BCG data scientists** ensuring growth and successful promotion through performance committees.

Allianz - General Insurance

LEAD PRICING ACTUARY

Sydney, Australia

Oct. 2017 - Oct. 2019

- **Led machine learning projects** to optimize home and motor insurance pricing, refining competitor price predictions and de-averaging geographical pricing; shared actionable insights with distribution teams to boost market positioning.
- **Built and Managed a team of actuaries**, reviewing daily analysis, conducting performance reviews and career plans.
- **Chaired the innovation committee**: organized data science training sessions for actuarial teams, led 3 Kaggle competitions.
- **Received the Allianz 2018 Innovation Award** for improving prediction of car total loss using image recognition algorithms.

Qopius - Startup in retail

CO-FOUNDER AND CHIEF TECHNICAL OFFICER

Paris, France

Oct. 2015 - Oct. 2017

- **Co-founded an image recognition start-up** for real-time retail stock management.
- **Developed and industrialized** our deep learning solution into AWS as Chief Technical Officer.
- **Successfully raised 1 million euros** in funding; pitched to Business Angels and at national tech events like Vivatech.
- **Recruited and managed 2 data scientists**, training them on complex product aspects like stitching and image segmentation.

AXA Global Direct - General Insurance

PRICING ACTUARY

Paris, France

Jan. 2015 - Oct. 2016

- **Forecasted conversion, churn, and competitor pricing** for 4 European AXA entities.
- **Completed a thesis in actuarial science** comparing 4 price optimization strategies for motor renewal portfolio; **Thesis.pdf**.

Personal projects

MACHINE LEARNING

- **Developed an automatic art piece pricer**: LLM agent, CLIP image recognition, React website and Fast APIs backend; **Valartic**.
- **Kaggle Expert level**, top 3% on Jigsaw text classification, top 5% on Rossmann sales forecast; Top 4% on MAIF price forecast.
- **Taught machine learning** to a panel of health leaders, for the World Bank health program.

HOBBIES

Tennis (20 years), Running (Paris & Sydney half-marathons), Art and Chess (1600 Elo).

Tools & Languages

DATA SCIENCE SKILLS

- **Coding language**: Python
- **Statistics languages**: SAS, R
- **Visualisation**: Tableau, Power BI
- **Deep learning**: Pytorch, Keras

DATA ENGINEER SKILLS

- **Industrialization**: Git, Docker, Bash, AWS, Azure, MLflow, Airflow
- **Databases**: SQL, Pyspark, Snowflake
- **Insurance**: Radar, Earnix, Emblem

SOFT SKILLS

- **French** (native), **English** (fluent)
- **Problem Solving**: 11 years
- **Team Management**: 6 years
- **Communication**: 7 years

Education

ENSAE - M.S.

NATIONAL ACTUARY ACCREDITATION

Paris, France ; 2014-2015

Telecom Paristech - M.S.

FINANCIAL MATHEMATICS

Paris, France ; 2010-2013
